Objective

Software developer building web applications, mobile apps, and backend services across logistics, healthcare, commerce, and ride-hailing. Experienced in TypeScript, React Native, Node.js, and real-time integrations, with additional Rust skills. Seeking a software engineering role where I can solve practical problems and deliver maintainable products.

Skills

- **Web & mobile:** React, Next.js, React Native, Expo, TypeScript, JavaScript, Tailwind CSS, NativeWind
- **Backend:** Node.js, NestJS, Express.js, Rust, Actix Web, Axum, REST APIs, Socket.IO
- **Data:** PostgreSQL, MongoDB, SQLx, TypeORM, Prisma
- **Infrastructure:** Docker, AWS, GitHub Actions, Nginx, Caddy, Git

Experience

- **Independent / Contract** Mar 2024 - Present
  Full Stack & Mobile Developer
  - Build web and mobile products, integrate APIs and third-party services, and automate delivery with Docker and GitHub Actions.
- **SkyInventories** 2025 - Present
  Full Stack Engineer
  - Develop logistics workflows across mobile and backend services, including tracking, reporting, and exports.
- **Itools AI** Jun 2023 - Feb 2024
  Full Stack Developer
  - Built Node.js/Express/MongoDB services and Next.js interfaces, including AI-assisted content scheduling and publishing.

Projects

- **SkyInventories | Logistics operations**
  - **Description:** Built mobile and backend workflows for warehouses, shipments, cargo, documents, and partner operations.
  - **Technologies:** React Native, Expo, TypeScript, NestJS, MongoDB, Docker, Caddy
  - **Contribution:** Delivered tracking, operational reports, and Excel exports; supported releases with GitHub Actions and containerized deployments.
- **PremierCare | Healthcare platform**
  - **Description:** Built patient and staff workflows for appointments, health wallets, claims, and dependant management across mobile and web.
  - **Technologies:** React Native, Expo, React, Node.js, Express, MongoDB, Socket.IO
  - **Contribution:** Implemented telehealth call alerts, real-time updates, and push notifications.
- **RideMe | Passenger and driver apps**
  - **Description:** Built mobile flows for ride selection, trip tracking, chat, payments, driver onboarding, and earnings.
  - **Technologies:** React Native, Expo, TypeScript, NativeWind, Mapbox, Socket.IO, Firebase
  - **Role:** Mobile application development and integration with existing backend APIs; backend development was outside my scope.
- **HOG | E-commerce platform**
  - **Description:** Built storefront, admin, and backend workflows spanning product discovery, cart, checkout, orders, inventory, and fulfillment.
  - **Technologies:** Next.js, React, TypeScript, NestJS, MongoDB, Paystack, Docker
  - **Contribution:** Integrated Paystack payments and WhatsApp-assisted product discovery and customer support.

Education

- **Federal University Oye-Ekiti (FUOYE)** 2025
